FULL-STACK ENGINEER

Eugen Punchenko

PHP / Laravel / Symfony / Vue.js / TypeScript

Kyiv, Ukraine · Remote via Ukrainian FOP · Full-time or contract

jenyaukraine@gmail.com github.com/jenyaukraine punchenko.de

Profile

Full-stack engineer with 10+ years of commercial PHP experience across Laravel, Lumen and Symfony, alongside Vue.js and TypeScript. I modernise existing products, build APIs and work hands-on across application code, infrastructure and connected devices. I use AI tools for research, implementation and review, with human validation.

Professional experience

Roles are ordered by documented start date; the end date of the former TCB role is unconfirmed.
